

9<sup>th</sup> February 2009

FABER MAUNSELL | AECOM

# A Road Map to Zero carbon Schools

## The CIBSE School Design Group

# Welcome

John Palmer - Faber Maunsell

## Origins

- Early 2007 - discussions with Dejan Mumovic and supported proposal to CIBSE
- Initial Meeting Held - July 2007
- Official Launch – June 2008

Support from Urban Buzz

## CIBSE School Design Group

The principal terms of reference are as follows:

- **to foster knowledge exchange between all interested parties working on sustainable school design**
- **to develop a strategy for healthy and sustainable school buildings**
- **to encourage cooperation between professional bodies of relevance for school design**
- **to reflect on changing procurement routes and design standards**
- **to identify gaps in the science of designing learning environments**
- **to initiate cooperation between academia and industry to resolve the problems of relevance to the industry**

## Scope

Forum for discussing all relevant school design issues

Research activities register

Liaison with other organisations

Case studies

Events

Publications

## Activities to date

Committee meetings – with presentations on relevant topics

Web site constructed and populated:

- minutes of meetings and presentations made
- research reports
- links to other sites of interest (e.g. Low Carbon Buildings Directory)

Newsletters produced

Numerous contributions to conferences and seminars

## Future

Publish Design Guidance

Develop Briefing Guidance

Liaise with CIBSE Natural Ventilation Group

Develop Case Studies

Continue events and publications through the website
